

CAUTION: CAUTION: This email originated from outside of our organization. Proceed with caution.

Here are photos of the shelters at City Park. The first two are the west shelter, 24x32 and the third is the east shelter 20x24. Either of these shelters would draw more families to the former Moose Lake Park and easy to construct. Note I did a closeup of the funding source for the west shelter. The last photo is the counter and electrical outlets attached to the East restrooms and storage room.

Hopefully, this information will offer the “Friends of Moose Lake” some possibilities as we move forward to receive support from the county and potential donors to have the site redesignated to a park. Note, I am copying Al Murray to give him a heads up on the possibility of having the “Moose Lake Park” redesignated as a park, to conform with the original intent of the donor of this property to the county as a “park”.
