5★

Public review

Beautiful location and lovely stay! We stayed for two weekends and happened to be here for a couple “winter storms” or winter warnings, and we are not from an area that gets a ton of snow. However, the roads were navigable and the host kept the paths clear, which was very much appreciated. The amenities were great for making us feel at home and enable us to cook at home and enjoy the beautiful area. The hosts were also so kind to put up a Christmas tree and leave treats for our kids. It was so special and lovely!

We had a great stay, thank you! And thank you so much for the beautiful Christmas tree and treats for our kids! It was so special to get to stay. I was nervous about the roads and weather, but the lodge was so cozy and we truly appreciate your care!
